

**NATIONAL FOREST TIMBER FOR SALE
ROGUE RIVER – SISKIYOU NATIONAL FOREST**

Changes to **Equine** Timber Sale Documents
On the Rogue River – Siskiyou NF Website

Restrictions to minimize disturbance to Marbled Murrelets are not required in Subdivisions 6, 6A, 9, and 15. The Schedule Pursuant to C6.315# - Sale Operation Schedule on Page 155 in the Equine Timber Sale Sample Contract has been corrected to reflect this. The information blocks on pages 7, 9, and 10 of 15 in the Sale Area and Slash Disposal Maps have also been edited to correctly show these changes.

(27 Aug 12)

There was a statement about the split haul on the Equine Timber Sale that was inadvertently left off the prospectus. On page 7 of 7 of the prospectus, the next to the last item reads:

This sale involves a "split haul". Subdivisions 17, 31, 32, 33, & 34 haul north down FSR 3318000 to FSR 33, Agness road. The

The statement has been corrected as follows:

This sale involves a "split haul". Subdivisions 17, 31, 32, 33, & 34 haul north down FSR 3318000 to FSR 33, Agness road. The remainder of the subdivisions haul south down 3318000 and then west down 3680000 (Hunter Creek) to Hwy 101.

In response to queries about the Specified Road Reconstruction:

Due to the amount of road reconstruction work and time allowed for completion of the roadwork and the contract as a whole, the Forest Service is willing to negotiate partial roadwork and partial logging operations in conjunction with one another, rather than total completion of roadwork prior to logging operations as specified in the contract.
